One - Dish Meals

One good substantial dish, and plenty of it, can save many hours in the kitchen — and your family will still eat well and happily. Many such dishes may use canned or left-over foods. They usually have meat, a starchy vegetable, and one or more other vegetables. All must be well - seasoned and served piping hot. A green salad, a bread and a wholesome dessert are suggested to be served with them. Here are some one - dish meal recipes:

Sausage casserole — put 1 pint of drained peas in a buttered baking dish. Cover with 2 cups of cooked rice, potato or macaroni. Place 1 pound of sausage on top and 4 tablespoons of catsup or chili sauce over sausage. Bake in moderate oven (350) until all is hot and sausage is brown (about 30 minutes).

Vegetable meat pie — cook 2 onions in one-fourth cup fat. Add 1 cup ground or canned meat, 2 shredded carrots, 1 cup water, 1 cup chopped celery, and 4 tablespoons flour. Cook until vegetables are almost tender. Put into a baking dish and cover with pastry, biscuit dough, or mashed potatoes. Bake in hot oven.

Quick chop suey — cook 2 cups chopped celery, 2 cups chopped onion, ½ cup shredded carrot, in one-fourth cup fat for 5 minutes. Add 1 cup water, 1 pint of canned pork or other meat, 2 tablespoons corn-starch or one-fourth cup flour, and 4 tablespoons soy or chop suey sauce, and cook until thick. Serve with cooked rice. You can substitue worcestershire sauce for the soy or chop suey sauce if you prefer.

Quick brunswick stew—brown 2 chopped onions in 1 tablespoon of fat. Add 2 pounds fresh or 1 quart canned pork 1 and one-fourth teaspoon salt, and liquid from 1 pint of lima beans and 1 quart whole kernel corn. Heat. Add 1 cup tomatoes or juice, beans and corn. Heat thoroughly. Sauce may be thickened with 3 tablespoons flour. This is good with corn bread and crisp green salad.

Cleaning Upholstery

Does the new finish on your upholstered furniture repel other-bone stains? Does it repel water-borne stains? Does it resist soil? If so most stains will stay surfaced on the fabric and it's relatively easy to blot them out.

However, eventually you will have clean the fabric. You may use a dry cleaner according to the manufacturer's directions. If the fabric is mounted on form rubber, use special care to see the solution does not come in contact with the rubber. For stains that stay on the surface, blot gently, don't rub.

Certain materials such as shoe polish, lipstick, or rouge will form stains because of the dye-stuffs deposited on the fabric. They cannot be easily removed from treated or untreated fabrics. Spot with carbon tetrachloride, then put with a dry absorbent cloth. Repeat process until the stain disappears. If a trace of color persists, you can bleach with diluted hydrogen peroxide — testing first on an under part of the fabric to see if the colors are affected.

The best methods of cleaning all finished fabrics will be noted on the labels. If you use other methods your results will vary depending on fabric construction, fabric content, individual care given the fabric, and many other factors. Frequent brushing and vacuuming will keep upholstered furniture free of surface dirt and dust. Some upholstery fabrics require professional cleaning care. Remember that the sooner you remove the stain, the easier it will come out. So keep your ammunition handy.

Tips For You

Ice cream balls can be quickly rolled in coconut, chocolate sprinkles, crushed peanut brittle, or praline before freezing.

When cooking hamburger in a skillet do not flatten with a spatula. This squeezes out the juice.

If you will place pieces of foil between hamburger patties before freezing, they will separate easily when you are ready to use them.
